The communication module offer is dedicated to the 35 mm/1.38 in. rail mounting version of **M171 performance** and **M172 performance** logic controllers (1). The 8 optional modules provide specific connections:

- To fieldbuses, including:
 - CAN bus
 - Modbus TCP
 - Profibus
 - Modbus SL (RS 485)
 - BACnet MS/TP (B-AAC profile)
 - BACnet IP (B-AAC profile)
 - RS 232 serial link
 - LonWorks (FFT-10)
 - Konnex (KNX) via Schneider Electric' spaceLYnk gateway, see page 5/5
- To services, including:
 - Ethernet
 - WebVisu and remote download functions
- They are mounted by simple interlocking on the left-hand side of an **M171 performance** or an **M172 performance** logic controller (1).
- Only one communication module can be added to a performance logic controller. The communication module is powered by the controller.
- Each communication module has its own type of connector, adapted to the bus or communication network (see details in the reference table, page 3/23).
